

**SCIENCE**

**INNOVATION**

**ETHICS**

to improve the value of nature

**ETIFOR**

**WHO WE ARE**

We are a spin-off of the University of Padua. We provide international consulting services to public and private organizations to help them grasp the full value of the products and services provided by nature.

**WHAT WE DO**

We support customers who want to have a positive impact on the world.

**OUR APPROACH**

Thanks to our strong background in **Research and Development**, we analyse the problem and the context from a scientific perspective.

We design **innovative solutions** and identify the best financial strategy.

We realize the most suitable proposal through **good governance** and effective **communication**.

**BUSINESS AREAS**

**RESPONSIBLE MANAGEMENT**

by applying policy and market solutions for the sustainable management of ecosystem products and services.

**SUSTAINABLE INVESTMENTS**

by connecting impact investors to innovative nature-based projects and start-ups.

**LOCAL DEVELOPMENT**

by linking natural beauty and cultural landscapes using participatory and good governance approaches.
