

boscoLimite
natura fuori porta

Not far from the River Brenta, on a farm that had been cultivating corn for 20 years, there is a forest producing clean water.

Bosco Limite: more water, more biodiversity, more nature!

WATER

Woods that filter **1 million cubic meters of water per year** thanks to 1.5km of canals, **improving the quality and the quantity of the water resources** of the area.

CLIMATE

Every year, the woods **capture 50 tonnes of CO₂**, equivalent to the annual emissions of **more than 30 cars!** (Based on an average annual car-use-emissions for one year – 1.65t CO₂)

BIODIVERSITY

The **2,300 plants** present at Bosco Limite comprising more than **15 different species**, including trees and shrubs, have enabled the woods to pass from one single species, maize, to reconstructing the typical forest of the Po Valley. With its **25,000 square meters**, the area has become the home of more than 20 species of birds.

PRODUCTS

The woods produce **renewable energy** and **valuable timber** for sustainable buildings. Moreover, Bosco Limite is an outdoor school and the perfect space for planting a tree, giving your personal contribution to nature!

Live Bosco Limite by....

PLANTING

planting a tree is a unique emotion and a perfect gift. More than 500 people from 15 different nations have chosen to plant their trees at Bosco Limite.

LEARNING

the forest turns into an outdoor classroom that allows adults and children to discover the magic of nature. **Come and visit us** with your class, your friends or your family!

VISITING

Bosco Limite is **open every day from 8:00 to 20:00**. If you book in advance our guides will accompany you for free to help you discover the largest Infiltration Forest Area in Italy!
